#### **What is this product?**

##### **Type**

The Fund is a unit-linked insurance fund operated by Invesco Pensions Limited ("IPL"). Investments can be made via a Trustee Investment Plan, a unit-linked life insurance policy issued by IPL to eligible UK registered pension schemes.

##### **Objectives**

- The objective of the Fund is to achieve a combination of income and capital growth over the medium to long term.
- Any income generated will be reinvested into the value of the Fund.
- The Fund invests entirely in the Invesco Corporate Bond Fund (UK), a fund managed by Invesco (the "Underlying Fund").
- The Underlying Fund invests primarily in investment grade corporate fixed interest and other debt securities.
- The Underlying Fund may use derivatives (contracts whose value is linked to the value of an underlying investment), in order to meet the Fund's investment objective and to reduce risk, reduce costs and/or generate additional capital or income.
- The Underlying Fund is actively managed within its objectives and is not constrained by a benchmark.
- The return of the Fund corresponds directly to the return of the Underlying Fund, which in turn will depend on the value of the assets it invests in and the income they generate.

##### **Intended Retail Investor**

The Fund is intended for trustees of UK Registered Pension Schemes aiming for income and capital growth over the medium to long term, who may not have specific financial expertise but are able to make an informed investment decision based on this document and the Key Features Document, have a risk appetite consistent with the risk indicator displayed below and understand that there is no capital guarantee or protection (100% of capital is at risk).

##### **Term**

The Fund does not have a maturity date and may only be closed unilaterally in accordance with the terms of the contract between you and Invesco Pensions Limited.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 2 out of 7, which is a low risk class. This figure rates the likelihood of losing money in the future at a low risk level.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment. However, you may benefit from a consumer protection scheme (see the section "what happens if we are unable to pay you"). The indicator shown does not consider this protection.

Fixed income securities may not always make interest and other payments nor is the solvency of the issuers guaranteed. Market conditions, such as a decrease in market liquidity, may mean that the product may not be able to sell those securities at their true value. These risks increase where the product invests in high yield or lower credit quality bonds and where we use derivatives.

The product has the ability to use derivatives for investment purposes, which may result in the product being leveraged and can result in large fluctuations in the value of the product.

The product may be exposed to counterparty risk should an entity with which the product does business become insolvent resulting in financial loss.

The product's performance may be adversely affected by variations in interest rates.

A more detailed description of risk factors that apply to the product is set out in the Trustee Investment Plan Brochure.

### Performance scenarios

Investment £10,000

		1 year	3 years	5 years Recommended holding period
<b>Stress scenario</b>	<b>What you might get back after costs</b>	£9,494	£9,086	£9,060
	Average return each year	-5.06%	-3.14%	-1.96%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	£10,193	£10,932	£11,793
	Average return each year	1.93%	3.01%	3.35%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	£10,452	£11,420	£12,478
	Average return each year	4.52%	4.53%	4.53%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	£10,721	£11,934	£13,207
	Average return each year	7.21%	6.07%	5.72%

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest £10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

### What happens if Invesco Pensions Limited is unable to pay out?

The Financial Services Compensation Scheme (FSCS) offers compensation when an authorised firm is unable to pay claims against it, usually because the firm has gone out of business. You may be entitled to compensation from the FSCS if we cannot meet our obligations. Your right to compensation will depend on the circumstances of the claim and whether you are eligible to claim. Further information is available from the FSCS.

### What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume you invest £10,000. The figures are estimates and may change in the future.

### Cost over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

### Investment £10,000

Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in at the end of 5 years
<b>Total Costs</b>	£57	£187	£344
Impact on return (RIY) per year	0.57%	0.57%	0.57%

### Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

### Impact on return per year

<b>One-off costs</b>	Entry costs	0.00%	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less.
	Exit costs	0.00%	
<b>Ongoing costs</b>	Portfolio transaction costs	0.07%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	0.50%	The impact of the costs that we take each year for managing your investment.
<b>Incidental costs</b>	Performance fees	n.a.	
	Carried interests	n.a.	

### How long should I hold it and can I take my money out early?

#### Recommended holding period: 5 years

We have selected 5 years as the product invests for the medium to long term.

You can surrender some or all of your investment in the product on any business day by writing to us.

If you surrender some or all of your investment before 5 years the product will be less likely to achieve its objectives however, you will not incur any additional costs by doing so.

### How can I complain?

If you have a complaint, please contact the Pensions Team, Invesco Pensions Limited, First Floor, The Columbia Centre, Station Road, Bracknell, RG12 1 LP. If your complaint is not resolved by us to your satisfaction, you may be entitled to refer it to the Financial Ombudsman Service at Exchange Tower, London E14 9SR, UK. Visit [www.financial-ombudsman.org.uk](http://www.financial-ombudsman.org.uk) for more details of this service. We will inform you of your rights when answering your complaint. A summary of our internal process for dealing with complaints is available on request.
